

Dear Mr. Snow:

I am deeply concerned about the Bay-Delta and the rivers, streams, and land making up its watershed. The Bay-Delta matters to me, personally, because I've lived & fished in the Sacramento area since 1969. I remember fish counts on the American River numbered in the hundreds of thousands. I'd like to see those days return...both the fishery and the environment. it starts with you

- I urge you to ensure that CalFed chooses a Bay-Delta solution that
- \* restores the ecosystem from the Sierra to the Sea, including vibrant populations of wild fish and the freshwater flows to sustain them, and
  - \* makes the most of the water we have, with maximum conservation and recycling on farms and in cities.

and I. I'm trying to do my part; please help!

Thank you,
